PRICE & CO., Clothiers.

The Latest Proposition.

A transatlantic liner exclusively for guests of the house is the latest proposition in the higher art of hotel keeping in New York. Yet the carrying out of this idea may be preceded by the arrival of the after dinner balloon party, with ascensions from the roof. What's the use of writing fairy tales these days?

Two Escape From Pen.

Resorting to strategy, Frank Solomon, of Somerset, and David Dozier of Lexington, escaped from the Frankfort penitentiary Saturday. They were seen several times between Frankfort and Hogg's Station, but when darkness came on they disappeared. More than fifty men are hunting for them.

Wife Desertion a Felony.

A bill is to be introduced in the next Legislature making wife and family desertion a penitentiary offense. The proposition strikes us as a good one, and will no doubt go far to stop an evil that has long worked a great hardship on helpless women and children of the State. No punishment is too severe for the brute who deserts his wife and dependent ones when they most need his assistance, and a law similar to the one suggested will no doubt be passed.

Seeing is Believing.

Stop in and look over the up-to-date cool summer suits that we are now offering at greatly reduced prices. They are money savers.

MITCHELL & BLAKEMORE, Outfitters for Men.

Sound Economy.

Clean up. It's sound economy to pay somebody a dollar or so to get the filth off your place, when by not doing so a spell of typhoid fever may be allowed to run up a big doctor's bill. That's the business view of it, and there are sentimental reasons, much more weighty on top of that.

LOSING FLESH

in summer can be prevented by taking

SCOTT'S EMULSION

It's as beneficial in summer as in winter. If you are weak and run down it will give you strength and build you up.

Take it in a little cold milk or water. Get a small bottle now. All Druggists.

THE STANDARD OF THE WORLD

Corn Stalks May Take Place of Wood.

Prof. B. T. Galloway, of the Agricultural department at Washington, has been experimenting with corn stalks as a material for making paper, and announces that great progress has been achieved along this line. While he does not say that the experiments so far prove that the thing is actually accomplished and is a commercial success, he is very hopeful that it will work out satisfactorily.

The paper workers are greatly interested in the experiments because, if it turns out that this great product of the farm can be turned into good paper it will have a marked effect on the paper making industry.

Corn stalks are about the cheapest product grown on the farm, and while not entirely useless as stock food, millions of acres are allowed to go entirely to waste every year.

Paper making wood is becoming somewhat scarce, although there is no such famine in the Northern woods as some alarmists would have us believe. If, however, the Government succeeds in making good paper out of corn stalks the wood will last longer and the price of paper will not be advanced to a point where its use would necessarily be restricted.

The Government has done many great things for the benefit of the farmers, but if the cornstalk experiments prove successful this achievement will rank among the most beneficial.

It will be a great day when the farmer can read the news printed on paper made from the corn stalks grown in his own field.

New Plea for Divorce.

The admission of "automobile cruelty" as a cause of separation in a case where the husband would not slow down at the wife's pleading, shows that in Chicago the divorce law keeps up with the speed mania.

Mattie Rankin, Paris.

Winning Number—1801.
